***EFFECTIVE ASTHMA RESEARCH HOLDS THE KEY TO IMPROVED  
LIFESTYLES FOR MANY PEOPLE DIAGNOSED WITH ASTHMA***

**ASTHMA FOUNDATION OF SOUTH AUSTRALIA  
RESEARCH GRANT 2010**

Applications are invited for an Asthma Foundation of SA Early Career Research Grant. The research, which must be undertaken in South Australia, may be related to asthma from an epidemiological, clinical, basic scientific or social perspective.

The grant, up to \$25,000 will be awarded only to an individual and institution with access to appropriate research facilities under the supervision of a responsible investigator. The grant may cover salary for research, technical, or other assistance as well as the cost of minor equipment, materials and other necessary items.

The Foundation is keen to encourage new researchers in commencing their research careers. The grant will be considered and assessed upon merit.

Further information, grant conditions and an application form are available for downloading from [www.asthmasa.org.au](http://www.asthmasa.org.au)

or from:-
