As a major sponsor of the Asthma Foundation of SA, and a first in Australia, Chemplus is embarking on a new and innovative partnership aiming to help more South Australians to breathe better.

Each Chemplus pharmacy state-wide will become 'Asthma Friendly' placing themselves in a unique position to provide better support for the hundreds of thousands of South Australians who have asthma and other respiratory conditions. All pharmacy staff will be provided with training in asthma management and each pharmacy will stock Asthma Foundation approved respiratory products and health information.

Chemplus Chief Executive Officer and Pharmacist Nick Tsamaidis says, "we are proud to work with the Asthma Foundation expanding our Good Health program by providing the community with outstanding and convenient support in managing asthma".

As a major partner, Chemplus will be directly supporting the AFSA's Asthma Friendly Children's Services program which provides child care staff with the skills to effectively manage an asthma emergency, aiming to provide a safer and more supportive environment for children with asthma. The partnership will ensure over 600 child care centres, pre-schools and OSHC registered in the 'Asthma Friendly' program will be supported with Asthma Control Packs for distribution to parents and carers of children with asthma.

Asthma Foundation of SA Chief Executive David Bedson says, "Asthma is extremely serious but can be managed. The Foundation is delighted to be partnering with Chemplus Pharmacies in the SA community along with other key partners to improve
